Legal Bases for the Processing

In the following, you will find an overview of the legal basis of the GDPR on which we base the processing of personal data. Please note that in addition to the provisions of the GDPR, national data protection provisions of your or our country of residence or domicile may apply. If, in addition, more specific legal bases are applicable in individual cases, we will inform you of these in the data protection declaration.

- **Consent (Article 6 (1) (a) GDPR)** - The data subject has given consent to the processing of his or her personal data for one or more specific purposes.
- **Performance of a contract and prior requests (Article 6 (1) (b) GDPR)** - Performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.
- **Legitimate Interests (Article 6 (1) (f) GDPR)** - Processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data.
- **Job application process as a pre-contractual or contractual relationship (Article 9 (2)(b) GDPR)** - If special categories of personal data within the meaning of Article 9 (1) GDPR (e.g. health data, such as severely handicapped status or ethnic origin) are requested from applicants within the framework of the application procedure, so that the responsible person or the person concerned can carry out the obligations and exercising specific rights of the controller or of the data subject in the field of employment and social security and social protection law, their

processing shall be carried out in accordance with Article 9 (2)(b) GDPR , in the case of the protection of vital interests of applicants or other persons on the basis of Article 9 (2)(c) GDPR or for the purposes of preventive health care or occupational medicine, for the assessment of the employee's ability to work, for medical diagnostics, care or treatment in the health or social sector or for the administration of systems and services in the health or social sector in accordance with Article 9 (2)(d) GDPR. In the case of a communication of special categories of data based on voluntary consent, their processing is carried out on the basis of Article 9 (2)(a) GDPR.

National data protection regulations in Germany: National data protection regulations in Germany:

In addition to the data protection regulations of the General Data Protection Regulation, national regulations apply to data protection in Germany. This includes in particular the Law on Protection against Misuse of Personal Data in Data Processing (Federal Data Protection Act - BDSG). In particular, the BDSG contains special provisions on the right to access, the right to erase, the right to object, the processing of special categories of personal data, processing for other purposes and transmission as well as automated individual decision-making, including profiling. Furthermore, it regulates data processing for the purposes of the employment relationship (§ 26 BDSG), in particular with regard to the establishment, execution or termination of employment relationships as well as the consent of employees. Furthermore, data protection laws of the individual federal states may apply.

Security Precautions

We take appropriate technical and organisational measures in accordance with the legal requirements, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, in order to ensure a level of security appropriate to the risk.

The measures include, in particular, safeguarding the confidentiality, integrity and availability of data by controlling physical and electronic access to the data as well as access to, input, transmission, securing and separation of the data. In addition, we have established procedures to ensure that data subjects' rights are respected, that data is erased, and that we are prepared to respond to data threats rapidly. Furthermore, we take the protection of personal data into account as early as the development or selection of hardware, software and service providers, in accordance with the principle of privacy by design and privacy by default.

SSL encryption (https): SSL encryption (https): In order to protect your data transmitted via our online services in the best possible way, we use SSL encryption. You can recognize such encrypted connections by the prefix https:// in the address bar of your browser.

Transmission of Personal Data

In the context of our processing of personal data, it may happen that the data is transferred to other places, companies or persons or that it is disclosed to them. Recipients of this data may include, for example, service providers commissioned with IT tasks or providers of services and content that are embedded in a website. In such a case, the legal requirements will be respected and in particular corresponding contracts or agreements, which serve the protection of your data, will be concluded with the recipients of your data.

Data Transmission within the Group of Companies: Data Transmission within the Group of Companies: We may transfer personal data to other companies within our group of companies or otherwise grant them access to this data. Insofar as this disclosure is for administrative purposes, the disclosure of the data is based on our legitimate business and economic interests or otherwise, if it is necessary to fulfill our contractual obligations or if the consent of the data subjects or otherwise a legal permission is present.

Data Transfer within the Organization: Data Transfer within the Organization: We may transfer or otherwise provide access to personal information to other locations within our organization. Insofar as this disclosure is for administrative purposes, the disclosure of the data is based on our legitimate business and economic interests or otherwise, if it is necessary to fulfill our contractual obligations or if the consent of those concerned or otherwise a legal permission is present.

Data Processing in Third Countries

If we process data in a third country (i.e. outside the European Union (EU), the European Economic Area (EEA)) or the processing takes place in the context of the use of third party services or disclosure or transfer of data to other persons, bodies or companies, this will only take place in accordance with the legal requirements.

Subject to express consent or transfer required by contract or law, we process or have processed the data only in third countries with a recognised level of data protection, on the basis of special guarantees, such as a contractual obligation through so-called standard protection clauses of the EU Commission or if certifications or binding internal data protection regulations justify the processing (Article 44 to 49 GDPR,

information page of the EU Commission: https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection_en).

Use of Cookies

Cookies are text files that contain data from visited websites or domains and are stored by a browser on the user's computer. A cookie is primarily used to store information about a user during or after his visit within an online service. The information stored can include, for example, the language settings on a website, the login status, a shopping basket or the location where a video was viewed. The term "cookies" also includes other technologies that fulfil the same functions as cookies (e.g. if user information is stored using pseudonymous online identifiers, also referred to as "user IDs").

The following types and functions of cookies are distinguished:

- **Temporary cookies (also: session cookies):** Temporary cookies are deleted at the latest after a user has left an online service and closed his browser.
- **Permanent cookies:** Permanent cookies remain stored even after closing the browser. For example, the login status can be saved or preferred content can be displayed directly when the user visits a website again. The interests of users who are used for range measurement or marketing purposes can also be stored in such a cookie.
- **First-Party-Cookies:** First-Party-Cookies are set by ourselves.
- **Third party cookies:** Third party cookies are mainly used by advertisers (so-called third parties) to process user information.
- **Necessary (also: essential) cookies:** Cookies can be necessary for the operation of a website (e.g. to save logins or other user inputs or for security reasons).
- **Statistics, marketing and personalisation cookies:** Cookies are also generally used to measure a website's reach and when a user's interests or behaviour (e.g. viewing certain content, using functions, etc.) are stored on individual websites in a user profile. Such profiles are used, for example, to display content to users that corresponds to their potential interests. This procedure is also referred to as "tracking", i.e. tracking the potential interests of users. If we use cookies or "tracking" technologies, we will inform you separately in our privacy policy or in the context of obtaining consent.

Information on legal basis: The legal basis on which we process your personal data with the help of cookies depends on whether we ask you for your consent. If this applies and you consent to the use of cookies, the legal basis for processing your data is your declared consent. Otherwise, the data processed with the help of cookies will be processed on the basis of our legitimate interests (e.g. in a business

operation of our online service and its improvement) or, if the use of cookies is necessary to fulfill our contractual obligations.

Retention period: Unless we provide you with explicit information on the retention period of permanent cookies (e.g. within the scope of a so-called cookie opt-in), please assume that the retention period can be as long as two years.

General information on Withdrawal of consent and objection (Opt-Out): Respective of whether processing is based on consent or legal permission, you have the option at any time to object to the processing of your data using cookie technologies or to revoke consent (collectively referred to as "opt-out"). You can initially explain your objection using the settings of your browser, e.g. by deactivating the use of cookies (which may also restrict the functionality of our online services). An objection to the use of cookies for online marketing purposes can be raised for a large number of services, especially in the case of tracking, via the websites <https://www.aboutads.info/choices/> and <https://www.youronlinechoices.com>. In addition, you can receive further information on objections in the context of the information on the used service providers and cookies.

Processing Cookie Data on the Basis of Consent: Processing Cookie Data on the Basis of Consent:

We use a cookie management solution in which users' consent to the use of cookies, or the procedures and providers mentioned in the cookie management solution, can be obtained, managed and revoked by the users. The declaration of consent is stored so that it does not have to be retrieved again and the consent can be proven in accordance with the legal obligation. Storage can take place server-sided and/or in a cookie (so-called opt-out cookie or with the aid of comparable technologies) in order to be able to assign the consent to a user or and/or his/her device. Subject to individual details of the providers of cookie management services, the following information applies: The duration of the storage of the consent can be up to two years. In this case, a pseudonymous user identifier is formed and stored with the date/time of consent, information on the scope of the consent (e.g. which categories of cookies and/or service providers) as well as the browser, system and used end device.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Performing tasks in accordance with statutes or rules of procedure

We process the data of our members, supporters, prospects, business partners or other persons (collectively, "data subjects") when we have a membership or other business relationship with them and

perform our functions and are recipients of benefits and benefits. Otherwise, we process the data of data subjects on the basis of our legitimate interests, e.g. when it concerns administrative tasks or public relations.

The data processed, the type, scope and purpose and the necessity of their processing, are determined by the underlying membership or contractual relationship, from which the necessity of any data information arises (otherwise we refer to necessary data).

We delete data that is no longer required for the performance of our statutory and business purposes. This is determined according to the respective tasks and contractual relationships. We retain the data for as long as it may be relevant for the purpose of conducting business and with regard to any warranty or liability obligations on the basis of our legitimate interest in their regulation. The necessity of storing the data is checked regularly; otherwise the statutory storage obligations apply.

- **Processed data types:** Inventory data (e.g. names, addresses), Payment Data (e.g. bank details, invoices, payment history), Contact data (e.g. e-mail, telephone numbers), Contract data (e.g. contract object, duration, customer category).
- **Data subjects:** Users (e.g. website visitors, users of online services), Members, Business and contractual partners.
- **Purposes of Processing:** Provision of contractual services and customer support, Contact requests and communication, Managing and responding to inquiries.
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Provision of online services and web hosting

In order to provide our online services securely and efficiently, we use the services of one or more web hosting providers from whose servers (or servers they manage) the online services can be accessed. For these purposes, we may use infrastructure and platform services, computing capacity, storage space and database services, as well as security and technical maintenance services.

The data processed within the framework of the provision of the hosting services may include all information relating to the users of our online services that is collected in the course of use and communication. This regularly includes the IP address, which is necessary to be able to deliver the contents of online services to browsers, and all entries made within our online services or from websites.

Collection of Access Data and Log Files: Collection of Access Data and Log Files: We, ourselves or our web hosting provider, collect data on the basis of each access to the server (so-called server log files). Server log files may include the address and name of the web pages and files accessed, the date and

time of access, data volumes transferred, notification of successful access, browser type and version, the user's operating system, referrer URL (the previously visited page) and, as a general rule, IP addresses and the requesting provider.

The server log files can be used for security purposes, e.g. to avoid overloading the servers (especially in the case of abusive attacks, so-called DDoS attacks) and to ensure the stability and optimal load balancing of the servers .

SiteGround: Hostingplattform für Blogs / Websites; Service provider: SiteGround Spain S.L., C/ Serrano 1, 5e, 28001 Madrid; Phone: +34 919 014 115 Website: <https://www.siteground.com>; Privacy Policy: <https://www.siteground.com/terms.htm>

- **Processed data types:** Content data (e.g. text input, photographs, videos), Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of our online services and usability.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Blogs and publication media

We use blogs or comparable means of online communication and publication (hereinafter "publication medium"). Readers' data will only be processed for the purposes of the publication medium to the extent necessary for its presentation and communication between authors and readers or for security reasons. For the rest, we refer to the information on the processing of visitors to our publication medium within the scope of this privacy policy.

Comment subscriptions: **Comment subscriptions:** When users leave comments or other contributions, their IP addresses may be stored based on our legitimate interests. This is done for our safety, if someone leaves illegal contents (insults, forbidden political propaganda, etc.) in comments and contributions. In this case, we ourselves can be prosecuted for the comment or contribution and are therefore interested in the author's identity.

Furthermore, we reserve the right to process user data for the purpose of spam detection on the basis of our legitimate interests.

On the same legal basis, in the case of surveys, we reserve the right to store the IP addresses of users for the duration of the surveys and to use cookies in order to avoid multiple votes.

The personal information provided in the course of comments and contributions, any contact and website information as well as the content information will be stored permanently by us until the user objects.

- **Processed data types:** Inventory data (e.g. names, addresses), Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos), Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of contractual services and customer support, Feedback (e.g. collecting feedback via online form), Security measures, Managing and responding to inquiries.
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Contacting us

When contacting us (e.g. by contact form, e-mail, telephone or via social media), the data of the inquiring persons are processed insofar as this is necessary to answer the contact enquiries and any requested activities.

The response to contact enquiries within the framework of contractual or pre-contractual relationships is made in order to fulfil our contractual obligations or to respond to (pre)contractual enquiries and otherwise on the basis of the legitimate interests in responding to the enquiries.

- **Processed data types:** Inventory data (e.g. names, addresses), Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of Processing:** Contact requests and communication.
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Video Conferences, Online Meetings, Webinars and Screen-Sharing

We use platforms and applications of other providers (hereinafter referred to as "Conference Platforms") for the purpose of conducting video and audio conferences, webinars and other types of video and audio meetings (hereinafter collectively referred to as "Conference"). When using the Conference Platforms and their services, we comply with the legal requirements.

Data processed by Conference Platforms: In the course of participation in a Conference, the Data of the participants listed below are processed. The scope of the processing depends, on the one hand, on which data is requested in the context of a specific Conference (e.g., provision of access data or clear names) and which optional information is provided by the participants. In addition to processing for the purpose of conducting the conference, participants' Data may also be processed by the Conference Platforms for security purposes or service optimization. The processed Data includes personal information (first name, last name), contact information (e-mail address, telephone number), access data (access codes or passwords), profile pictures, information on professional position/function, the IP address of the internet access, information on the participants' end devices, their operating system, the browser and its technical and linguistic settings, information on the content-related communication processes, i.e. entries in chats and audio and video data, as well as the use of other available functions (e.g. surveys). The content of communications is encrypted to the extent technically provided by the conference providers. If participants are registered as users with the Conference Platforms, then further data may be processed in accordance with the agreement with the respective Conference Provider.

Logging and recording: If text entries, participation results (e.g. from surveys) as well as video or audio recordings are recorded, this will be transparently communicated to the participants in advance and they will be asked - if necessary - for their consent.

Data protection measures of the participants: Please refer to the data privacy information of the Conference Platforms for details on the processing of your data and select the optimum security and data privacy settings for you within the framework of the settings of the conference platforms. Furthermore, please ensure data and privacy protection in the background of your recording for the duration of a Conference (e.g., by notifying roommates, locking doors, and using the background masking function, if technically possible). Links to the conference rooms as well as access data, should not be passed on to unauthorized third parties.

Notes on legal bases: Insofar as, in addition to the Conference Platforms, we also process users' data and ask users for their consent to use contents from the Conferences or certain functions (e.g. consent to a recording of Conferences), the legal basis of the processing is this consent. Furthermore, our processing may be necessary for the fulfillment of our contractual obligations (e.g. in participant lists, in the case of reprocessing of Conference results, etc.). Otherwise, user data is processed on the basis of our legitimate interests in efficient and secure communication with our communication partners.

- **Processed data types:** Inventory data (e.g. names, addresses), Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos), Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.), Users (e.g. website visitors, users of online services).

- **Purposes of Processing:** Provision of contractual services and customer support, Contact requests and communication, Office and organisational procedures.
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Services and service providers being used:

- **Skype:** Messenger and conference software; Service provider: Microsoft Corporation, One Microsoft Way, Redmond, WA 98052-6399 USA; Website: <https://www.skype.com>; Privacy Policy: <https://privacy.microsoft.com/de-de/privacystatement>, Security information: <https://www.microsoft.com/de-de/trustcenter>.
- **Zoom:** Video Conferencing, Web Conferencing and Webinars; Service provider: Zoom Video Communications, Inc., 55 Almaden Blvd., Suite 600, San Jose, CA 95113, USA; Website: <https://zoom.us>; Privacy Policy: <https://zoom.us/docs/de-de/privacy-and-legal.html>; Standard Contractual Clauses (Safeguarding the level of data protection when processing data in third countries): <https://zoom.us/docs/de-de/privacy-and-legal.html> (referred to as Global DPA).

Job Application Process

The application process requires applicants to provide us with the data necessary for their assessment and selection. The information required can be found in the job description or, in the case of online forms, in the information contained therein.

In principle, the required information includes personal information such as name, address, a contact option and proof of the qualifications required for a particular employment. Upon request, we will be happy to provide you with additional information.

If made available, applicants can submit their applications via an online form. The data will be transmitted to us encrypted according to the state of the art. Applicants can also send us their applications by e-mail. Please note, however, that e-mails on the Internet are generally not sent in encrypted form. As a rule, e-mails are encrypted during transport, but not on the servers from which they are sent and received. We can therefore accept no responsibility for the transmission path of the application between the sender and the reception on our server. For the purposes of searching for applicants, submitting applications and selecting applicants, we may make use of the applicant management and recruitment software, platforms and services of third-party providers in compliance with legal requirements. Applicants are welcome to contact us about how to submit their application or send it to us by regular mail.

Processing of special categories of data: If special categories of personal data within the meaning of Article 9 (1) GDPR (e.g. health data, such as severely handicapped status or ethnic origin) are requested from applicants within the framework of the application procedure, so that the responsible person or the person concerned can exercise his/her rights arising from labour law and social security and social protection law and fulfil his/her duties in this regard, their processing shall be carried out in accordance with Article 9 (1)(b) GDPR, in the case of the protection of vital interests of applicants or other persons pursuant to Article 9 (1)(c) GDPR or for the purposes of preventive health care or occupational medicine, for the assessment of the employee's ability to work, for medical diagnostics, care or treatment in the health or social sector or for the administration of systems and services in the health or social sector in accordance with Article 9 (1)(h) GDPR. In the case of a communication of special categories of data based on voluntary consent, their processing is carried out on the basis of Article 9 (1)(a) GDPR.

Ereasure of data: In the event of a successful application, the data provided by the applicants may be further processed by us for the purposes of the employment relationship. Otherwise, if the application for a job offer is not successful, the applicant's data will be deleted. Applicants' data will also be deleted if an application is withdrawn, to which applicants are entitled at any time. Subject to a justified revocation by the applicant, the deletion will take place at the latest after the expiry of a period of six months, so that we can answer any follow-up questions regarding the application and comply with our duty of proof under the regulations on equal treatment of applicants. Invoices for any reimbursement of travel expenses are archived in accordance with tax regulations.

Admission to a talent pool - Admission to an talent pool, if offered, is based on consent. Applicants are informed that their consent to be included in the talent pool is voluntary, has no influence on the current application process and that they can revoke their consent at any time for the future.

- **Processed data types:** Job applicant details (e.g. Personal data, postal and contact addresses and the documents pertaining to the application and the information contained therein, such as cover letter, curriculum vitae, certificates, etc., as well as other information on the person or qualifications of applicants provided with regard to a specific job or voluntarily by applicants).
- **Data subjects:** Job applicants.
- **Purposes of Processing:** Job Application Process (Establishment and possible later execution as well as possible later termination of the employment relationship).
- **Legal Basis:** Job application process as a pre-contractual or contractual relationship (Article 9 (2)(b) GDPR).

Cloud Services

We use Internet-accessible software services (so-called "cloud services", also referred to as "Software as a Service") provided on the servers of its providers for the following purposes: document storage and administration, calendar management, e-mail delivery, spreadsheets and presentations, exchange of documents, content and information with specific recipients or publication of websites, forms or other content and information, as well as chats and participation in audio and video conferences.

Within this framework, personal data may be processed and stored on the provider's servers insofar as this data is part of communication processes with us or is otherwise processed by us in accordance with this privacy policy. This data may include in particular master data and contact data of data subjects, data on processes, contracts, other proceedings and their contents. Cloud service providers also process usage data and metadata that they use for security and service optimization purposes.

If we use cloud services to provide documents and content to other users or publicly accessible websites, forms, etc., providers may store cookies on users' devices for web analysis or to remember user settings (e.g. in the case of media control).

Information on legal basis - If we ask for permission to use cloud services, the legal basis for processing data is consent. Furthermore, their use can be a component of our (pre)contractual services, provided that the use of cloud services has been agreed in this context. Otherwise, user data will be processed on the basis of our legitimate interests (i.e. interest in efficient and secure administrative and collaboration processes).

- **Processed data types:** Inventory data (e.g. names, addresses), Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos), Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Customers, Employees (e.g. Employees, job applicants), Prospective customers, Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of Processing:** Office and organisational procedures.
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Performance of a contract and prior requests (Article 6 (1) (b) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).

Newsletter and Electronic Communications

We send newsletters, e-mails and other electronic communications (hereinafter referred to as "newsletters") only with the consent of the recipient or a legal permission. Insofar as the contents of the newsletter are specifically described within the framework of registration, they are decisive for the consent of the user. Otherwise, our newsletters contain information about our services and us.

In order to subscribe to our newsletters, it is generally sufficient to enter your e-mail address. We may, however, ask you to provide a name for the purpose of contacting you personally in the newsletter or to provide further information if this is required for the purposes of the newsletter.

Double opt-in procedure: The registration to our newsletter takes place in general in a so-called Double-Opt-In procedure. This means that you will receive an e-mail after registration asking you to confirm your registration. This confirmation is necessary so that no one can register with external e-mail addresses.

The registrations for the newsletter are logged in order to be able to prove the registration process according to the legal requirements. This includes storing the login and confirmation times as well as the IP address. Likewise the changes of your data stored with the dispatch service provider are logged.

Deletion and restriction of processing: We may store the unsubscribed email addresses for up to three years based on our legitimate interests before deleting them to provide evidence of prior consent. The processing of these data is limited to the purpose of a possible defense against claims. An individual deletion request is possible at any time, provided that the former existence of a consent is confirmed at the same time. In the case of an obligation to permanently observe an objection, we reserve the right to store the e-mail address solely for this purpose in a blacklist.

Information on legal bases: The sending of the newsletter is based on the consent of the recipients or, if consent is not required, on the basis of our legitimate interests in direct marketing. Insofar as we engage a service provider for sending e-mails, this is done on the basis of our legitimate interests. The registration procedure is recorded on the basis of our legitimate interests for the purpose of demonstrating that it has been conducted in accordance with the law.

Contents: Updates about projects, grants and related topics from the supported area.

Measurement of opening rates and click rates: The newsletters contain a so-called "web-beacon", i.e. a pixel-sized file, which is retrieved from our server when the newsletter is opened or, if we use a mailing service provider, from its server. Within the scope of this retrieval, technical information such as information about the browser and your system, as well as your IP address and time of retrieval are first collected.

This information is used for the technical improvement of our newsletter on the basis of technical data or target groups and their reading behaviour on the basis of their retrieval points (which can be determined with the help of the IP address) or access times. This analysis also includes determining whether newsletters are opened, when they are opened and which links are clicked. This information is assigned to the individual newsletter recipients and stored in their profiles until the profiles are deleted. The evaluations serve us much more to recognize the reading habits of our users and to adapt our content to them or to send different content according to the interests of our users.

The measurement of opening rates and click rates as well as the storage of the measurement results in the profiles of the users and their further processing are based on the consent of the users.

A separate objection to the performance measurement is unfortunately not possible, in this case the entire newsletter subscription must be cancelled or objected to. In this case, the stored profile information will be deleted.

- **Processed data types:** Inventory data (e.g. names, addresses), Contact data (e.g. e-mail, telephone numbers), Meta/communication data (e.g. device information, IP addresses), Usage data (e.g. websites visited, interest in content, access times).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of Processing:** Direct marketing (e.g. by e-mail or postal).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).
- **Opt-Out:** You can cancel the receipt of our newsletter at any time, i.e. revoke your consent or object to further receipt. You will find a link to cancel the newsletter either at the end of each newsletter or you can otherwise use one of the contact options listed above, preferably e-mail.

Onlinemarketing

We process personal data for the purposes of online marketing, which may include in particular the marketing of advertising space or the display of advertising and other content (collectively referred to as "Content") based on the potential interests of users and the measurement of their effectiveness.

For these purposes, so-called user profiles are created and stored in a file (so-called "cookie") or similar procedure in which the relevant user information for the display of the aforementioned content is stored. This information may include, for example, content viewed, websites visited, online networks used, communication partners and technical information such as the browser used, computer system used and information on usage times. If users have consented to the collection of their sideline data, these can also be processed.

The IP addresses of the users are also stored. However, we use provided IP masking procedures (i.e. pseudonymisation by shortening the IP address) to ensure the protection of the user's by using a pseudonym. In general, within the framework of the online marketing process, no clear user data (such as e-mail addresses or names) is secured, but pseudonyms. This means that we, as well as the providers of online marketing procedures, do not know the actual identity of the users, but only the information stored in their profiles.

The information in the profiles is usually stored in the cookies or similar memorizing procedures. These cookies can later, generally also on other websites that use the same online marketing technology, be read and analyzed for purposes of content display, as well as supplemented with other data and stored on the server of the online marketing technology provider.

Exceptionally, clear data can be assigned to the profiles. This is the case, for example, if the users are members of a social network whose online marketing technology we use and the network links the profiles of the users in the aforementioned data. Please note that users may enter into additional agreements with the social network providers or other service providers, e.g. by consenting as part of a registration process.

As a matter of principle, we only gain access to summarised information about the performance of our advertisements. However, within the framework of so-called conversion measurement, we can check which of our online marketing processes have led to a so-called conversion, i.e. to the conclusion of a contract with us. The conversion measurement is used alone for the performance analysis of our marketing activities.

Unless otherwise stated, we kindly ask you to consider that cookies used will be stored for a period of two years.

Information on legal basis: If we ask users for their consent (e.g. in the context of a so-called "cookie banner consent"), the legal basis for processing data for online marketing purposes is this consent. Otherwise, user data will be processed on the basis of our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online services. In this context, we would also like to refer you to the information on the use of cookies in this privacy policy.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Marketing, Profiles with user-related information (Creating user profiles).
- **Security measures:** IP Masking (Pseudonymization of the IP address).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR).
- **Opt-Out:** We refer to the privacy policies of the respective service providers and the possibilities for objection (so-called "opt-out"). If no explicit opt-out option has been specified, it is possible to deactivate cookies in the settings of your browser. However, this may restrict the functions of our online offer. We therefore recommend the following additional opt-out options, which are offered collectively for each area: a) Europe: <https://www.youronlinechoices.eu>. b) Canada: <https://www.youradchoices.ca/choices>. c) USA: <https://www.aboutads.info/choices>. d) Cross-regional: <https://optout.aboutads.info>.

Profiles in Social Networks (Social Media)

We maintain online presences within social networks and process user data in this context in order to communicate with the users active there or to offer information about us.

We would like to point out that user data may be processed outside the European Union. This may entail risks for users, e.g. by making it more difficult to enforce users' rights.

In addition, user data is usually processed within social networks for market research and advertising purposes. For example, user profiles can be created on the basis of user behaviour and the associated interests of users. The user profiles can then be used, for example, to place advertisements within and outside the networks which are presumed to correspond to the interests of the users. For these purposes, cookies are usually stored on the user's computer, in which the user's usage behaviour and interests are stored. Furthermore, data can be stored in the user profiles independently of the devices used by the users (especially if the users are members of the respective networks or will become members later on).

For a detailed description of the respective processing operations and the opt-out options, please refer to the respective data protection declarations and information provided by the providers of the respective networks.

Also in the case of requests for information and the exercise of rights of data subjects, we point out that these can be most effectively pursued with the providers. Only the providers have access to the data of the users and can directly take appropriate measures and provide information. If you still need help, please do not hesitate to contact us.

Facebook: **Facebook:** We are jointly responsible (so called "joint controller") with Facebook Ireland Ltd. for the collection (but not the further processing) of data of visitors to our Facebook page. This data includes information about the types of content users view or interact with, or the actions they take (see "Things that you and others do and provide" in the Facebook Data Policy: <https://www.facebook.com/policy>), and information about the devices used by users (e.g., IP addresses, operating system, browser type, language settings, cookie information; see "Device Information" in the Facebook Data Policy: <https://www.facebook.com/policy>). As explained in the Facebook Data Policy under "How we use this information?" Facebook also collects and uses information to provide analytics services, known as "page insights," to site operators to help them understand how people interact with their pages and with content associated with them. We have concluded a special agreement with Facebook ("Information about Page-Insights", https://www.facebook.com/legal/terms/page_controller_addendum), which regulates in particular the security measures that Facebook must observe and in which Facebook has agreed to fulfill the rights of the persons concerned (i.e. users can send information access or deletion requests directly to Facebook). The rights of users (in particular to access to information, erasure, objection and complaint to the competent supervisory authority) are not restricted by the agreements with Facebook. Further information can be found in the "Information about Page Insights" (https://www.facebook.com/legal/terms/information_about_page_insights_data).

- **Processed data types:** Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos), Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Contact requests and communication, Feedback (e.g. collecting feedback via online form), Marketing.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Plugins and embedded functions and content

Within our online services, we integrate functional and content elements that are obtained from the servers of their respective providers (hereinafter referred to as "third-party providers"). These may, for example, be graphics, videos or city maps (hereinafter uniformly referred to as "Content").

The integration always presupposes that the third-party providers of this content process the IP address of the user, since they could not send the content to their browser without the IP address. The IP address is therefore required for the presentation of these contents or functions. We strive to use only those contents, whose respective offerers use the IP address only for the distribution of the contents. Third parties may also use so-called pixel tags (invisible graphics, also known as "web beacons") for statistical or marketing purposes. The "pixel tags" can be used to evaluate information such as visitor traffic on the pages of this website. The pseudonymous information may also be stored in cookies on the user's device and may

include technical information about the browser and operating system, referring websites, visit times and other information about the use of our website, as well as may be linked to such information from other sources.

Information on legal basis: If we ask users for their consent (e.g. in the context of a so-called "cookie banner consent"), the legal basis for processing is this consent. Otherwise, user data will be processed on the basis of our legitimate interests (i.e. interest in the analysis, optimisation and economic operation of our online services. We refer you to the note on the use of cookies in this privacy policy.

Facebook plugins and contents: Facebook plugins and contents: We are jointly responsible (so-called "joint-controllership") with Facebook Ireland Ltd. for the collection or transmission (but not further processing) of "Event Data" that Facebook collects or receives as part of a transmission using the Facebook Social Plugins that run on our website for the following purposes: a) displaying content advertising information that matches users' presumed interests; b) delivering commercial and transactional messages (e.g. b) delivering commercial and transactional messages (e.g., addressing users via Facebook Messenger); c) improving ad delivery and personalizing features and content (e.g., improving recognition of which content or advertising information is believed to be of interest to users). We have entered into a special agreement with Facebook ("Controller Addendum", https://www.facebook.com/legal/controller_addendum), which specifically addresses the security measures that Facebook must take (https://www.facebook.com/legal/terms/data_security_terms) and in which Facebook has agreed to comply with the rights of data subjects (i.e., users can, for example, submit information access or deletion requests directly to Facebook). Note: If Facebook provides us with measurements, analyses and reports (which are aggregated, i.e. do not contain information on individual users and are anonymous to us), then this processing is not carried out within the scope of joint responsibility, but on the basis of a DPA ("Data Processing Terms", <https://www.facebook.com/legal/terms/dataprocessing/update>), the "Data Security Conditions" (https://www.facebook.com/legal/terms/data_security_terms) and, with regard to processing in the USA, on the basis of Standard Contractual Clauses ("Facebook EU Data Transfer Addendum", https://www.facebook.com/legal/EU_data_transfer_addendum). The rights of users (in particular to access to information, erasure, objection and complaint to the competent supervisory authority) are not restricted by the agreements with Facebook.

- **Processed data types:** Usage data (e.g. websites visited, interest in content, access times), Meta/communication data (e.g. device information, IP addresses), Event Data (Facebook) ("Event Data" is data that can be transmitted from us to Facebook, e.g. via Facebook pixels (via apps or other means) and relates to persons or their actions; the data includes, for example, information about visits to websites, interactions with content, functions, installations of apps, purchases of products, etc.; Event data is processed for the purpose of creating target groups for content and advertising information (Custom Audiences); Event Data does not include the actual

content (such as written comments), login information, and Contact Information (such as names, email addresses, and phone numbers). Event Data is deleted by Facebook after a maximum of two years, the Custom Audiences created from them with the deletion of our Facebook account), Contact data (e.g. e-mail, telephone numbers), Content data (e.g. text input, photographs, videos), Inventory data (e.g. names, addresses).

- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of Processing:** Provision of our online services and usability, Provision of contractual services and customer support, Feedback (e.g. collecting feedback via online form).
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR), Consent (Article 6 (1) (a) GDPR), Performance of a contract and prior requests (Article 6 (1) (b) GDPR).

Services and service providers being used:

- **Facebook plugins and contents:** Facebook Social Plugins and contents - This can include content such as images, videos or text and buttons with which users can share content from this online service within Facebook. Erasure of data

The data processed by us will be erased in accordance with the statutory provisions as soon as their processing is revoked or other permissions no longer apply (e.g. if the purpose of processing this data no longer applies or they are not required for the purpose).

If the data is not deleted because they are required for other and legally permissible purposes, their processing is limited to these purposes. This means that the data will be restricted and not processed for other purposes. This applies, for example, to data that must be stored for commercial or tax reasons or for which storage is necessary to assert, exercise or defend legal claims or to protect the rights of another natural or legal person.

In the context of our information on data processing, we may provide users with further information on the deletion and retention of data that is specific to the respective processing operation.

Changes and Updates to the Privacy Policy

We kindly ask you to inform yourself regularly about the contents of our data protection declaration. We will adjust the privacy policy as changes in our data processing practices make this necessary. We will inform you as soon as the changes require your cooperation (e.g. consent) or other individual notification.

If we provide addresses and contact information of companies and organizations in this privacy policy, we ask you to note that addresses may change over time and to verify the information before contacting us.

Rights of Data Subjects

As data subject, you are entitled to various rights under the GDPR, which arise in particular from Articles 15 to 21 of the GDPR:

- **Right to Object:** You have the right, on grounds arising from your particular situation, to object at any time to the processing of your personal data which is based on letter (e) or (f) of Article 6(1) GDPR, including profiling based on those provisions. Where personal data are processed for direct marketing purposes, you have the right to object at any time to the processing of the personal data concerning you for the purpose of such marketing, which includes profiling to the extent that it is related to such direct marketing.
- **Right of withdrawal for consents:** You have the right to revoke consents at any time.
- **Right of access:** You have the right to request confirmation as to whether the data in question will be processed and to be informed of this data and to receive further information and a copy of the data in accordance with the provisions of the law.
- **Right to rectification:** You have the right, in accordance with the law, to request the completion of the data concerning you or the rectification of the incorrect data concerning you.

- **Right to Erasure and Right to Restriction of Processing:** In accordance with the statutory provisions, you have the right to demand that the relevant data be erased immediately or, alternatively, to demand that the processing of the data be restricted in accordance with the statutory provisions.
- **Right to data portability:** You have the right to receive data concerning you which you have provided to us in a structured, common and machine-readable format in accordance with the legal requirements, or to request its transmission to another controller.
- **Complaint to the supervisory authority:** In accordance with the law and without prejudice to any other administrative or judicial remedy, you also have the right to lodge a complaint with a data protection supervisory authority, in particular a supervisory authority in the Member State where you habitually reside, the supervisory authority of your place of work or the place of the alleged infringement, if you consider that the processing of personal data concerning you infringes the GDPR.

Terminology and Definitions

This section provides an overview of the terms used in this privacy policy. Many of the terms are drawn from the law and defined mainly in Article 4 GDPR. The legal definitions are binding. The following explanations, on the other hand, are intended above all for the purpose of comprehension. The terms are sorted alphabetically.

- **Controller:** "Controller" means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.
- **IP Masking:** IP masking is a method by which the last octet, i.e. the last two numbers of an IP address, are deleted so that the IP address alone can no longer be used to uniquely identify a person. IP masking is therefore a means of pseudonymising processing methods, particularly in online marketing.

- **Personal Data:** "personal data" means any information relating to an identified or identifiable natural person ("data subject"); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.
- **Processing:** The term "processing" covers a wide range and practically every handling of data, be it collection, evaluation, storage, transmission or erasure.
- **Profiles with user-related information:** The processing of "profiles with user-related information", or "profiles" for short, includes any kind of automated processing of personal data that consists of using these personal data to analyse, evaluate or predict certain personal aspects relating to a natural person (depending on the type of profiling, this may include different information concerning demographics, behaviour and interests, such as interaction with websites and their content, etc.) (e.g. interests in certain content or products, click behaviour on a website or location). Cookies and web beacons are often used for profiling purposes.
